

Identity Protection That's Truly Valuable.

Covering your members against all 9 types of identity theft.

You're here for your members. And growing that membership means giving them every possible advantage you can. Unfortunately, they are at growing risk for identity theft in new and dangerous ways. Today's criminals are stealing more than financial data — they're exploiting other sensitive, personal and healthcare information for profit. Make sure your members are covered with MyIDCare™ — ID Experts leading complete protection service.

This means your members face a myriad of threats to their identities. Undoing the damage caused by identity theft disrupts lives and consumes valuable time. It's no wonder that a growing number of organizations now offer identity protection benefits. They know that it's no longer a question of whether their members will have their identities compromised; it's when and how often.

The Solution: MyIDCare Affinity

In today's competitive marketplace, organizations are seeking ways to provide unique and valuable benefits to their members. MyIDCare Affinity is the only identity protection benefit that safeguards your members from all 9 types of identity theft. By offering this service, your members will know you value their protection.

Half the adults in the United States have had their identity breached in the past year.

More than one million children were victims of identity fraud in 2017.

MyIDCare Affinity Features

MyIDCare identity protection includes alert-based identity monitoring, fully-managed identity recovery services, \$1 million reimbursement insurance, and access to the ID Care Team for questions and help with identity theft issues.

Built & Backed by Experts

Our team of privacy & security experts developed MyIDCare to meet the needs of our Fortune 500 and government clients who demand the highest of security clearances.

Proven Longevity

Since 2003, we have served some of the largest organizations.

Personal & Attentive

Live, experienced support at every touchpoint: from implementation to concierge-style recovery.

Flexible & Adaptable

We work the way you work. Our services are proven, and no client is too big or too small.

Identity & Financial Monitoring

- **Credit Monitoring:** Single or tri bureau credit monitoring alerts members to activity affecting their credit score.
- **CyberScan™:** Our proprietary technology scours the Internet & Dark Web for illegal selling and trading of Social Security and driver's license numbers, medical insurance records, credit card and bank account information, and much more.
- **Social Security Number Trace:** We monitor names and addresses associated with members' SSNs to help detect possible fraudulent activity.
- **Court Records:** We scan court records and alert members to incorrect matches between their identity and criminal activity.
- **Change in Address:** When criminals use address change requests to steal information and open accounts, we alert members to those requests.
- **Payday Loans:** We work with credit bureaus to alert members of potential payday loan fraud.

Financial Protection

- **Stolen Funds Reimbursement:** In the event of fraud, we'll replace stolen money, including losses due to medical, financial, and other types of identity theft.
- **Lost Wallet Recovery Services:** We'll help cancel or replace missing items, such as driver's licenses and credit cards.

Access to ID Care Team

- If a member's identity is stolen, our ID Care Team works with them to restore their identity to pre-theft status.

\$1M Reimbursement Insurance

- Members who become victims of identity theft are eligible for up to \$1 million in reimbursement for related expenses, including stolen funds, legal expenses, and lost wages.

Hassle-free Implementation

- We provide the implementation, rollout plan, and the tools you need to communicate with your members – all within 30 days of signing.
